"At the Safe House, we are all old and alone and hurt, bearing deep wounds invisible to the eyes. Your generosity and gifts brought joy and happiness to all of us.

The greatest of your gifts was that you showed me there are good people who do care, and that lifted my heart and gave me hope. For this gift, I offer my thanks from the bottom of my heart!"

"I have opened up to be a new person, like I used to be, thanks to your help and comfort. I've realized that there is help for seniors like me who have been wrongfully abused, that it is ok to get help and that it is not my fault.

When I came to Sage, I was embarrassed to think that at my age I needed help in such a situation, but the respect and comfort I felt from the staff made me feel safe and welcomed!"
